

# CARNIVOROUS PLANTS

NAME: \_\_\_\_\_

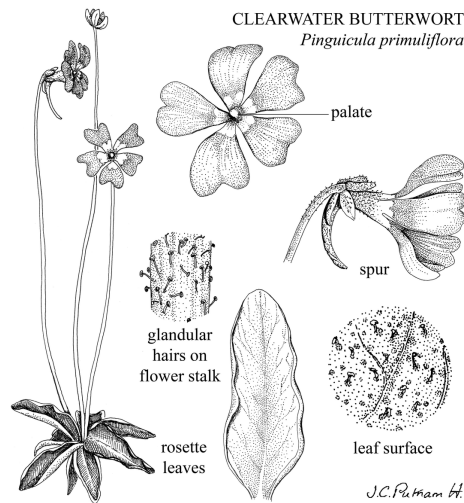

Plot the following coordinates on the US Map to show the distribution of carnivorous plants in the US

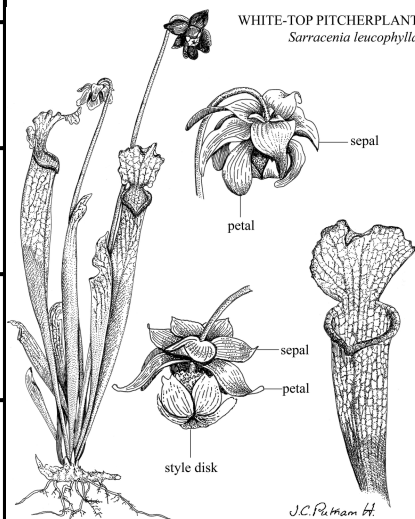

Using a red marker or crayon, plot the following coordinates to show where the *Sarracenia* plant can be found. This is just a small sample of the places where these plants can live.

Using a blue marker or crayon, plot the following coordinates to show where the *Pinguicula* plant can be found. This is just a small sample of the places where these plants can live.
